

CHART 63091

NOTE

NM 2/00

Numerous production platforms, underwater construction works on wellheads and pipelines, single buoy moorings and oil derricks, only some of which carry lights and fog signals, other unlit objects and submerged obstructions, oil barges, drilling rigs, diving tenders and support vessels exist within the designated Oil Development Areas enclosed by dashed lines. As all these features cannot be charted, special caution should be exercised by vessels navigating in the vicinity. Vessels are advised not to enter these areas and those entering will do so at their own risk for which the Government of India will not be liable in anyway. Mariners may also be liable for damage they may cause in navigating within these Oil Development Areas at their own risk.
